

2016 Recommended Passover Product List For Sephardic Communities By the J.S.O.R.

Dear Community Member,

The Jersey Shore Orthodox Rabbinat takes pride in once again presenting to our Sephardic Community a comprehensive guide to Passover products. In order to supply the community with up to date information, this is also available on the website: www.jsor.org. We have added some popular food categories for this year, including some commonly used health foods.

This list is compiled after extensive research and correspondence with food industry experts and experts in the field of Kashrut. Since Sephardic Jews have different customs and traditional foods than our Ashkenaz brothers, this list is designed to serve those whose custom includes the consumption of **Kitniyot**, or legumes on the holiday. Since the majority of Jews in America are of Ashkenaz descent, the major Kashrut organizations have only certified those items that are permissible for them. In the last several years, both the Star K and the OU have begun to certify some foods that are for those who eat kitniyot. We have included those items, and as well have listed those foods that are permissible without special Kosher for Passover (KFP) symbols.

Passover Points

What is Hames?- Any foods or food products, which contain ingredients, derived from one of the following fermented cereal grains: **wheat, barley, oats, spelt or rye** are forbidden on Passover. Even foods that contain minute amounts of Hames, or foods which are processed on utensils which are used for other hames-containing foods, are not permissible for Passover use. Many Sepharadim have the custom of eating different legumes or kitniyot and foods that are derived from them. Even in the Syrian community, there are differences in customs as to which legumes are used. Some refrain from eating Chumus and Tehina, due to the similarity of the words to Hames and Techin (flour). Others do not eat corn. Each person should follow family custom, or ask your Rabbi for guidance.

What is prohibited? Consumption, Ownership, and Benefit from Hames. Simply said: You can't eat it, You can't own it and you can't profit or utilize it on the holiday. We must be careful what we eat and we must sell any remaining Hames (actual food or that which is on our utensils that we are locking up) to the Rabbi by Thursday April 21st. The Rabbis then sell the Hames to a Gentile early Friday morning . **Do not forget to sell your hames!**

Read Product labels Carefully! – Make sure a reliable Kosher for Passover certification appears on the package. Take this guide with you to the store! Remember that ‘reading the labels’ is impossible on Pesach, too many chemicals may have **hames** ingredients. Alcohol, Ascorbic Acid, citric acid, Dextrose, Glucose, Malto dextrin, PolySorbates, Sodium Citrate, Sodium, Erythrobate, Xantham Gum & Sorbitol (outside U.S.) are among the list of common ingredients that can be derived from both grain and legume sources.

Beware of Look Alikes – Often Kosher for Passover and non-Kosher for Passover products have identical packaging.

Do not purchase a product just because it was good last year. – Discard old lists - they will confuse you, some things change.

DO NOT buy any product simply since it is in the “Passover Aisle”! Some stores do not remove the hames matzot, spices and coating crumbs and other “year round kosher” foods from the shelf before restocking for the holiday.

Know your personal and family Kashrut level! not all Kashrut certifications are created equal. Check with the people who will partake of your meals and see what they prefer- ask your family custom pertaining to corn, rice, beans. Even within the community there are different family customs to take into account. This advance planning will save heartache and promote shalom.

Look before you cook! – even with the best intentions a non-Kosher for Passover item could be purchased inadvertently. Mix ups happen! An extra glance on every item before cooking can save hours of trouble and possibly having to use the food for non-Passover meals!

Do not assume – Ask! If you have a doubt about koshering or about a product being Kosher for Passover, clarify the question with your Rabbi. Questions about products may be emailed to jsorkosher@gmail.com OR text 732-995-4422. If you have a question we respectfully request that you leave a detailed message, with a phone number on that number.

Calls will be returned, G-d willing, daily. If you do not get a call back, please text us back the following day, it has

happened that the message or the phone number was unclear, and we couldn't call back.

Please note: the last phone calls we will answer will be on Thursday, April 21st @ 1:00 P.M.

We have made an addition to our yearly guide, a list of commonly used medications and toiletries that are considered hames-free! Most Rabbis agree that pill form, prescription medication (not chewable or liquid) is acceptable to take. Regarding prescription medications, do not stop taking any medication without first clearing it with your doctor! When in doubt- ask!

May the merit of our care in observing the commandments of the holiday bring us all closer to *Avinu She' be Shamayim*, our Loving Father in Heaven that we may merit His redemption! Amen.

The Passover Food Guide

Whenever possible, buy those products that bear a reliable Passover label to be assured that the product has been prepared for the holiday. **All products whether or not they need special supervision should only be used if the package is new and unopened.**

NON FOOD PRODUCTS: All Aluminum Foil, Foil tins, Foam, paper and Plastic dishes and cups are acceptable. Cling wrap and wax paper are also fine. Parchment paper: Bakomatic, Master Baker, Reynolds and Kirkland are acceptable without a P.

BABY PRODUCTS:

Baby Cereal: Due to information from the Rabbi at the O.U. in charge of Pesach production, Beech Nut Pure rice cereal should **not** be used. There is Materna brand from Israel that has supervision, but it is not widely available. Alternatively, may we suggest one of the following:

- 1) Cook rice thoroughly and then puree in the blender with formula.
- 2) Preparing the cereal from ground checked rice.
- 3) Soak Passover breakfast cereal or crumbled lady fingers in milk or formula and then mash or blend.
- 4) Try a variety of baby\ hot cereals that are made from finely ground matza meal or potato starch. (see cereals)

Baby Formula: Alsoy; Enfamil; Enfacare; Isomil; Prosobee; Similac LeMehadrin and regular; Nestle Good Start and Next Step- are all acceptable. Additionally, the following store brands are good: Kirkland Signature, CVS, Target, Walgreens and Wegmans brands. Pediatric Electrolytes: CVS and Walgreens brands.

Baby Foods: Must have Kosher for Passover supervision.

The following brands are marked: Glicks and Haddar are KAJp and First Choice, Festive and Healthy Time are OUp, Gerber: Carrots, Green Beans and Peas are acceptable. Plain OU only.

NOTE: Beech Nut is no longer certified for Kosher for Passover. Ideally, it is best to (gasp!) prepare baby food at home using a blender or food processor.

Baking Powder: Supervision required. Gefen, Glicks, Haddar, Lieber's, Mishpacha and V.I.P. Masters are KFP.

Baking Soda: (Bicarbonate of Soda) No Passover Supervision necessary. (New box)

Candy and Chocolates: Passover Supervision is necessary for all chocolate candies; likewise, hard sucking candies need supervision because they are often coated with flour. **All must bear special supervision for Pesach.**

Beware! Some candies coming out of Israel may contain 'gelatine', which may be derived from animal sources! Do not use any candy, even from Israel, without verifying the supervision.

Cereals and Breakfast Foods: All cereals made from the five grains are of course, *hames*. In addition, many cold cereals such as corn flakes and rice krispies are *hames* since malt is added to them. We strongly suggest that even those cereals in which the listed ingredients are 100% kosher for Passover, should not be used as they are in constant contact with grains that are real *hames*.

You will find many types in the Supermarket Kosher for Passover aisle. MUST be marked. Most are made from finely ground Matza flour, but some made from Tapioca and are '*Shehakol*'...

Pancake mix: Gefen, Manischewitz and Savion OUP

Cider Vinegar: Requires supervision, the nutrient may be *Hames*.

Instant- In former years, most instant coffees were acceptable if they were unflavored, this is no longer the case. As a flavor enhancer, malto dextrin, which may be derived from barley is added. This year, only the Folgers and Tasters Choice brands of regular,

unflavored instant coffee can be used without special Passover marking.

DAIRY PRODUCTS:

Milk: It is preferable to purchase kosher milk with Passover supervision for Pesach, but one may buy regular milk for the holiday, if purchased before Pesach. In addition to the Chalav Yisrael brands, many supermarket brands are marked Kosher for Passover milk available throughout the holiday. Only marked milk should be purchased during the holiday, since the dairy adds vitamins to the milk and also may process chocolate milk that contains malt (*hames*) on the same equipment. Please note! OU-P designation does not mean that the product is Chalav Yisrael.

Lactaid drops and caplets are not kosher for Pesach. Lactaid milk may be used only when purchased before the Holiday. Ask your Rabbi for additional information.

Chocolate Milk: Requires Passover supervision as the flavoring may contain Hames.

GLUTEN FREE Products: as the gluten free demand has increased, there are many types of cakes, cookies, crackers and even 'matza look alike' that are produced for Passover. The Beracha for these items is Shehakol.

Many have asked about the acceptability of year round gluten free products. The answer is NO. Gluten free means that it is free of the gluten aspect of the grain, however some grains, such as oats, are naturally gluten free, but they are 100% HAMES.

GRAINS- Kitniyot: Alfalfa, Buckwheat, Chia Seeds, Flax Seed and Hemp Seed: **Whole only**
May be used after checking for other grains.

GRAPE LEAVES: The Orlando brand which was sold and has new owners changed supervision last year and they are now BARUCH HASHEM certified again for Passover. (to everyone's relief!) Other brands of grape leaves are preserved in brine, which may contain hames vinegar or may have citric acid from a hames origin. Please note! It is very important that all grape leaves be washed carefully. Inspect each leaf on both sides.

HONEY: Due to late-breaking information from Kashrus Magazine, we are recommending that **even pure** honey be supervised year round and for Passover. Many varieties are available. "Pure" honey from Turkey and from China was found to have flavoring and other added ingredients!

JUICES:

All juices need special Passover certification as the enzymes and clarifying agents may be hames.

Prune Juice- Gefen and Sunsweet KFP

LIQUORS in the last few years they have presented a new problem- Alcohol derived from wine is being used in production of liquors and cordials. This is completely separate from the issue of whether the liquors contain non-kosher wine. There are several varieties available for Pesach. Bartenura, Ashkelon, Zachlawai, and Carmel Arak are Kosher for Pesach.

Vinprom Brandy is acceptable w/o P: apple, Apricot, Pear or Plum flavopred

OUP: The following brands produce different types of Vermouth, Vodka and Cordials: Bartenura, Binyamina, Carmel, Kedem, Sabra and Slibovitz. Zachlawai premium Vodka in many flavors that are OUP.

NOTE: Chopin Potato Vodka is not recommended. Zachlawi made Potato Vodka.

MARGARINE: Many margarines use starch in their flavoring making Passover supervision necessary. Mother's (OU-P)

MARSHMALLOWS: The Pesach market is inundated with marshmallows that are labeled "Kosher for Passover". Many of these contain gelatin which is made from non-Kosher animal sources. It is vital that all labels are read before purchasing any products containing marshmallow. The OU, Kof K, Star K, and OK do not permit the use of gelatin from non-kosher sources. OUP: Elyon, Gefen and Granny brands have made a special Passover production.

MASSA (Matza): One must be alert that the matza for year round use is hames, and it is marked "not for Passover use".

Caution: many places may return items from previous years to the shelf, it is imperative to check all matza products, cake mixes and spices for freshness. Old products have been found to contain insects and larvae!! Check carefully for a product code stating year of production. Lacking that information, the products must be inspected thoroughly!

Acceptable only when marked kosher for Passover are: Chicago Shmura; Haddar; Glick's; Aviv; Carmel; Gefen; Geula; Goodman, Holyland; Horowitz Margaretten, Manischewitz, Osem, Rishon Lezion, Savion, Streits, Yarden, Yehuda & Yonovsky.

For those with wheat allergies, Oat and Spelt matza is also available by special order.

It is recommended to use Matza Shemura for the Seder.

MAYONNAISE, Ketchup, and Mustard:

According to knowledgeable people in the Kashrut world, one should avoid the use of any product containing vinegar even if the company assures that the vinegar used is not of grain origin. We therefore recommend that all mayonnaise,

ketchup and mustard, etc., should have proper Passover supervision.

Ketchup: OU-P: Blanchard & Blanchard, Gefen; Haddar; Manischewitz, Rokeach, Savion; Star K- P: Eden.

Mayonnaise: OU-P: Gefen, Glick's, Manischewitz; Mishpacha, Benz's, Unger's Star K-P; Haddar.

NUTS: Raw nuts, without additives are all acceptable for Passover. However, one must refrain from any roasted nuts unless it is KFP certified.

NUTS AND SEEDS (Roasted) Star S-P: Settons Bizr, peanuts.

OILS: Since all major Kashrut organizations in the USA are geared to Ashkenazic customs they supervise only non-legume based oils. Available are: OU-P: Gefen, Mishpacha, Nutola, Pathmark, Rokeach,; Grapeseed Oil: Bartenura OUP

Kof-KP: Hain Oils

Avocadoil: OUP

Sephardim whose custom it is to use soybeans and corn may use any certified kosher for year round use brand of pure corn, canola or soybean or vegetable oils such as: Mazola or Wesson.

Some manufacturers (such as Kirkland\Costco) have added 'citric acid' to some of their oil. Although this ingredient is usually extracted from corn, it can be made from a chametz

source, therefore we do not recommend any oil containing this ingredient as we have no verification of the source of the citric acid.

Extra virgin pure Olive Oil. May be used w/out P. New container only for all oils.

PASTA & PIZZA! Special Kosher for Passover made either from Matza meal or Potato starch: Dayeinu, and Frankels, Macabee and Manischewitz. OUP

PEANUT BUTTER: Kitni OU Kitniyot (for those who eat peanuts) IMPORTANT: Fresh Direct brand was mislabeled as OK-P, in reality it is OK Parve, and not recommended for Passover.

PET FOODS: Fish food often contains meat and milk ingredients and is forbidden for use the entire year. Most pet foods contain Hames. Since we are forbidden to derive any benefit from Hames, we may not feed any pets those varieties that contain hames ingredients. Krill fish food is permitted. Alfalfa, sunflower seeds, split corn or millet are recommended for feeding birds. Bird Jungle sells a mixture for Passover (no kidding!) There are brands of cat and dog food that are available that do not have hames or the prohibited mixture of meat and milk. A detailed list can be found at www.star-k.org. Or at www.crcweb.org

PICKLES: Need Passover supervision. Batampete, Flaum, Gefen, Gilboa – Beit Hashita, Kvuzat Yavne, Manischewitz and Osem, Schorr's are all OU-P. Unger's Star K-P

POTATO CHIPS: Passover certification necessary, with the OU-P: Bloom's, Herr's, Pathmark, Manischewitz and Utz Potato chips. Also KFP: Lieber's.

QUINOA: Ancient Harvest Brand: White, Red. Or Tri-color Star K (no P necessary)

Due to reports of Chametz mixed in, use the following only marked with KP:

Star KP: Setton Farms

Natural Earth Products

OU-P: Pereg brand; Goolbaums

Sugat Quinoa from Israel.

Quinoa flour needs to be marked KP (Pereg available)

RICE: The staple of the Sephardic Passover diet is Rice. It is the #1 question. Which rice is good?

Most supermarket brands of rice are enriched. The enrichment is diluted with starch in order to distribute it evenly on the rice. This can be a corn, rice or a wheat starch base. Unlike for the past 25 years, we no longer have access to the detailed information about the enrichment processing ingredients, and therefore,

We do not recommend enriched rice.

It has been our custom throughout the generations to check all rice three times before Pesach. While in Arkansas, I was informed that the crops are rotated yearly, and that it is very common to find grain in rice fields. Although there is equipment to remove any non-rice pieces, it is not 100 % effective. Please be advised that every year grains are found in the rice, check carefully.

Rice Cakes and Mixes: Kitni OU Kitniyot
Rice Crackers and Crumbs: Konniko Star S-P

"" **White Rice:** Any unenriched or organic rice is acceptable.

SELTZERS: Any unflavored seltzer with KP certification is acceptable.

Pepsi products must bear a Kof KP on the cap

SOUP MIXES: Beware containers bearing a "P" are often identical to the year-round variety!

SOY FOODS: while actual soybeans are permissible for most Sephardim, products made of soy, such as soy sauce, TVP and tofu and are forbidden. These products are made through extraction methods that use grain alcohol in the processing of the soybeans.

Raw Sugar: C&H Hawaiian Raw Cane Sugar.

Palm Sugar: Sweet Tree Coconut Palm Sugar (Earth Kosher No P req.) Coconuts Secrets Crystals.

Confectioner's Sugar does contain 3% corn starch but according to some Sephardic customs, may be permissible for Pesach. Only sugar and cornstarch allowed! According to one Passover publication, they found that C&H brand contains wheat starch. It is therefore our advice that you should only use a marked brand, since it is impossible to make sure that there is no mixing of Chames. (chas v'shalom) Canadian Confectioner Sugar is also not permissible as it contains wheat starch instead of corn starch.

There are several varieties of Confectioners' sugar without corn starch: OUP: Mishpacha and KAJ-P: Haddar brand.

Vanilla Sugar: may contain grain alcohol and therefore, Passover supervision is required.

Brown sugar: C&H, Dixie, Shure fine and America's Choice and Shoprite brands may be used without a P.

Instant Tea: Nestea Instant unflavored only. Regular only. No KP needed.

Herbal Teas: Need to be marked: OU-P: Bigelow, Sweet-Touch-Nee: Herbal and Wissotzky- many varieties.

Tomato Paste and Sauce: Passover supervision required.

Due to flavored varieties of paste and sauce now being produced, the OK laboratories inform us that tomato products must have proper Pesach supervision. Mishpacha, Gefen, Glick's, Haddar, Lieber's and Unger's - all with KFP certification.

Note: *Throughout the year, Tomato products should only be used with a known reliable supervision, it has been discovered that certain packers of tomato products were producing tomato with (non-kosher) romano cheese sauce and then producing the crushed tomatoes, with no cleaning in between! Understandably this is not acceptable*

TUNA: See Fish

VEGETABLES:

Dried Beans: May be used according to custom. Must be checked Three times before Pesach.

Also check for insects, especially in black eyed peas.

Frozen: Several years ago, a new lighter cuisine heralded the introduction of frozen pasta and vegetable mixtures.

Vegetable companies blanch veggies and pasta blends together, and then use the same equipment for plain vegetables. Some companies purchase processed vegetables from another source and put their own label on the package. Codes provided by the companies proved inaccurate, and the information was confusing.

We highly recommend the use of fresh vegetables, despite the convenience of the frozen.

The most important of all, peas and beans will again be available for the Sephardic Community.

Star S-P: Yerek Brand Peas, Green Beans, Mixed Vegetables, Lima Beans, Cut Corn.

There are several Israeli brands that are also marked Kosher for Passover for Ochlei Kitniyot.

Several companies made other frozen vegetables, including broccoli, cauliflower and spinach, which are properly checked for insects and for Pesach.

Within the Sephardic Community, there are varied customs as to the use of dried beans, chick peas, techina and corn. Consult your Rabbi for further information. If you are certain that it is your custom, these should be checked to insure that no grains are mixed in.

Dried Eggplant: These are imported from Turkey, where they are collected from different villages. The importer informed us that the local women scoop them out, hang them to dry, and then tie them in string. In the event that there is a rush to get them dried out, flour is put inside to draw out the moisture! Understandably, we cannot recommend these for Passover. Japanese eggplant are a fine alternative, they are very long and slender, and can be easily cut in half and scooped out.

Pre-washed salad: Some brands use citric acid in the rinse water to balance the ph (to prevent wilting), and are not recommended.

Unlike in previous years, ALL STAR K marked brands may be used only with a Passover mark.

Several Brands from Israel provides insect free lettuce and herbs, rinse before using.

Bodek, Pos'tiv and Fresh Express must be used with Passover certification.

Note: we received information about bad batches of California and Mexican grown produce that was infested! Buyer beware! Buy only top quality looking produce and even if it is marked –

All Romaine must be washed and checked for insects!

Small flies are attracted to lettuce, even if it is grown hydroponically. (The ones from Israel state clearly that the produce does not need inspection, but it must be rinsed.)

If you are using the unsupervised lettuce, please contact your Rabbi for direction how to properly check for insects. Alternatively, our article: **The fruit & vegetable**

List of Kitniyot:

The following are considered Kitniyot or treated as Kitniyot according to many opinions:
